

# ZoomText

LV

ZoomText is a software application offering magnification, colour contrast and pointer and cursor enhancements. ZoomText comes in two versions - ZoomText Magnifier, which will enlarge and enhance everything on your computer screen with perfect clarity, making all of your applications easy to see and use; and ZoomText Magnifier/Reader, which includes all the great features of ZoomText Magnifier, and will additionally read aloud any text on your computer screen.

ZoomText allows for great productivity and supports the Windows 11 and 10 operating systems as well as the latest versions of popular applications.
