

Portable Magnifiers

MagniLink Zip

The MagniLink Zip is an easy-to-use foldable magnifier. It provides excellent image quality and is available in two screen sizes – 13.3" and 17.3". Easy to fold up and store away, the battery-powered MagniLink Zip is also useful for working on-the-go.

The MagniLink Zip features a full HD reading/distance camera that can be adjusted both vertically and horizontally. The optional PCViewer enables your MagniLink Zip to connect to a computer and includes OCR software. This OCR software will read printed text aloud, with several different display modes such as line by line, word by word and character by character.

Ergonomic and easy to operate, the MagniLink Zip features large, tactile buttons and various high-contrast options to best suit the needs of each individual. The monitor can easily be set to the height and angle that you desire, reducing tension in the neck and shoulders.
